# Adil Younas

Seeking Full time Job In Web development as A Market Fresher,  
Build Ton of Projects || Web Developer enthusiast || MERN Stack ||  
React.js, Node.js, MongoDB, Express.js || Frontend || Backend  
Gujranwala District, Punjab, Pakistan

## Projects for Show Case

1. Instead of firebase i use pure coding in backend and handle requests with logics
2. I have learn almost everything of backend by creating this project and i have use these libraries  
  
"bcryptjs", "cloudinary", "cookie-parser", "cors", "dotenv", "express", "express-fileupload", "jsonwebtoken", "mongoose", "nodemailer", "razorpay", "validator"  
  
3. I have learned every advance concept of frontend by this project may be it look like nothing but it is actually something valueable and i use these libraries in BuyBay Front end  
  
"@emotion/react", "@emotion/styled", "@mui/icons-material", "@mui/lab", "@mui/material", "@mui/x-data-grid", "@reduxjs/toolkit", "@testing-library/jest-dom", "@testing-library/react", "@testing-library/user-event", "axios", "chart.js", "country-state-city", "crypto-js", "react", "react-avatar-editor", "react-chartjs-2", "react-dom", "react-helmet-async", "react-hot-toast", "react-material-ui-carousel", "react-redux", "react-router-dom", "react-scripts", "sass", "web-vitals"  
  
4. It is hard to explain every detail of this particular project but if you want to know further more about this project then we can discuss.

---

Bitcoin Is My precious project As calling API I have learn 4 things majorly

1. Chakra UI
2. React Reuseable component knowledge
3. Api Call using Async Await
4. I use Graph first time.

## **Netflix Clone** => <https://netflix-clone-using-react-js-main.vercel.app/>

---

It was the one of the complex projects when i start learning about React js and I learn 3 things

1. API Call
2. Responsive clone using pure React and Native CSS

2. React Router Dom
3. Scroll up button creation

## **Recipe Web App** => <https://recipes-app-ruby.vercel.app/>

---

As It was first app In which I request for API although it was a night mare because it was first time but the pleasure is all mine.

1. API Calling and learn mostly about async await
2. Motion libraries like splider and motion library
3. It was highly click able and satisfying because of Its first look

Material UI practice facebook clone

<https://material-ui-pi-sand.vercel.app/>

---

As Material UI is The first experience in this project I learn various things

1. First Introduction of a component

2. And detail view of Material UI web APP

Shopping Cart => <https://shopping-cart-eight-ebon.vercel.app/>

Shopping Cart is one of the famous project in the developers and contain important concepts also

1. Redux Toolkit

2. Live Calculation

## Summary

"Welcome to my profile! I am a passionate and ambitious WebDeveloper, eagerly seeking full-time opportunities to showcase my skills and contribute to exciting projects. With a strong focus on MERN Stack (MongoDB, Express.js, React.js, Node.js), I am equally adept at both frontend and backend development.

While my educational background includes a Master's degree in arts, I quickly realized that my true calling lies in the dynamic world of IT and web development. It was not an easy journey to transition from arts to coding, but my determination led me to conquer the challenges, learning extensively from various online resources, especially YouTube.

Today, I take pride in my abilities to develop creative and efficient solutions, backed by a diverse array of personal projects that demonstrate my proficiency. Whether it's crafting user-friendly interfaces or optimizing backend functionality, I am committed to delivering high-quality results.

As a continuous learner, I thrive on staying updated with the latest industry trends and technologies. I firmly believe that one should know exactly what they want in life, and for me, it's a rewarding career in web development.

---

If you're seeking a dedicated Web Developer with a blend of technical prowess and creative flair, I would be thrilled to connect with you. Let's collaborate on innovative projects and drive impactful change together. Feel free to reach out—I'm excited to explore new opportunities!"

## Experience

Mindbridge

1 year 1 month

Customer Service Agent

September 2020 - September 2021 (1 year 1 month)

Lahore, Punjab, Pakistan

As a former Customer Care Representative at Telenor Lahore, I mastered communication, problem-solving, and teamwork. Now, I'm transitioning to web development, driven to create user-centric solutions. Let's connect and explore potential opportunities.
